                                                                                                                                                                                                                                                                                                                                                                                                     Sequence 69, Application US/09943762
Patent No. US20020142958A1
GENERAL INFORMATION:
```

```
AFFLICANT: WOOG, WILLIAM
TITLE OF INVENTION: SECRETED AND TRANSMEMBRANE POLYPEPTIDES AND NUCLEIC
TITLE OF INVENTION: ACIDS ENCODING THE SAME
FILE REFERENCE: P2548PLC1
CURRENT APPLICATION NUMBER: US/09/944,654
CURRENT FILING DATE: 2001-09-26
PRIOR APPLICATION NUMBER: 09/866,028
